1.0 Introduction

In Task 1 of the project, our group, "Network Nexus," was tasked with designing a floor plan for the new 2-storey building, N28B, for the Faculty of Computing (FC). This building is being developed to support the anticipated 15% growth in both student and academic staff populations over the next four years. The new facility will include essential spaces such as four labs, a video conferencing room, a hybrid classroom, and a student lounge with Wi-Fi connectivity.

The design must align with the Faculty's goal of creating a scalable, cost-effective, and future-ready environment. It will support high-speed internet connectivity, reliable network security, and future wireless capabilities, all while ensuring efficient use of space and resources. Our team has developed a floor plan that meets these requirements and supports the FC's vision for future growth and technological advancement.

2.0 Floor Plan Design

2.1 Ground Floor's Floor Plan

2.2 First Floor's Floor Plan

Scale :
1 cm : 1 m

2.3 Floor Plan for General Purpose Lab

2.4 Floor Plan for Cisco Network Lab

2.5 Floor Plan for Embedded Lab (IOT, Digital and sensors)

2.6 Floor Plan for Hybrid Classroom

2.7 Floor Plan for Video Conferencing Room

2.8 Floor Plan for Student Lounge

2.9 Symbol List

GPL - General Purpose Lab

VCR - Video Conferencing Room

CNL - Cisco Network Lab

EL - Embedded Lab

- Elevator

MINUTES			
NO.	ITEM DISCUSSED	IDEA/SUGGESTIONS AND PERSON GIVING IT	PERSON IN CHARGE & DATE
1	Find group name	- Chew Chuan Kai suggested Network Nexus - Tan Min Xuan suggested SignalBridge - Abid Humayraa suggested CommSphere	
2	Confirmation of group name	“Network Nexus” is our group name that achieved by every member after voting	
3	Software to use	We decided using “SmartDraw” , “Draw.io” and “floorplancreator.net” to design our floor plan	
4	Floor design	1. Chew Chuan Kai – Ground Floor’s Floor Plan & Meeting Minute 2. Tan Min Xuan – First Floor’s Floor Plan & Directory for floor plan 3. Abid Humayraa – Design Equipment needed in 4 labs, video conferencing room, hybrid classroom and student lounge.
