**DATA MINING (SECP2753)
SEM II – 2024/2025**

**ASSIGNMENT 1 – BUSINESS INSIGHTS & DATA
UNDERSTANDING**

INSTRUCTIONS:

1. Collect a dataset from a public repository of your choice. You can collect more than one dataset and integrate them into a single dataset.
2. List at least five(5) business insights from the collected dataset (you may also list more business insights).
3. Understand the data from the dataset you collected and integrate, explain its characteristics based on the insight and analyses that you will conduct in next assignment.
4. Report on the characteristics of the data set and the business insights (together with relevant measurements/formulae) on the presentation slides.
5. Save your file as yourname_assignmentname.pdf.

INSTRUCTIONS:

- ☐ Total marks **(15%)**.
- ☐ Marks will be awarded based on:
 - The logic of the business insights identified from the collected dataset(s). (5 marks)
 - How well you conduct your investigation, understanding the characteristics of the collected dataset with relevant business insights. (8 marks)
 - Creativity and good presentation of your findings in presentation slides. (2 marks)
- ☐ Submit your assignment 1 report via e-learning on **30th April 2025 (before 10PM)**.
